If you purchased tokens, you may be able to join the token holders' class action. I am copying the proposed lead plaintiff, Jun Dam, and his attorney, Timothy Blood.

The estate also has a cause of action arising from the depleted escrow. It is in the early stages. Those two actions will hopefully fund a recovery for creditors.

Pamela  
Thank you so much for your reply!

Hello my name is [REDACTED] I bought [REDACTED] worth of miners in giga watt back in 2017. i also paid Giga-Watt to mine for me. Does this make me a part of the unsecured creditor's committee? If so, can you

share any info with me about how i might get my mining equipment and any profits that were made from it (since the start of bankruptcy).

I have talked to quite a few people and they have directed me in your direction. I have also emailed you in the past, dating back to 2019 as part of the group email. I hope I can get something out of this investment and if so, my father and two friends also are in the same position. It would be such a blessing for our family if you can help in this matter.

Feels truly like theft on the part of Giga-Watt considering that my physical property should have been returned to me. It was not their property to mine with or hold onto.

Thank you fo much for your help.

**REDACTED**

As this is now Chapter 7 case, you should contact the counsel for the Chapter 7 Trustee. Her name is Pamela Egan.

There have been no distributions to any creditor so far in this case.

Ben
